Student Quiz Performance Report

Created 2026-05-11 08:38. Completion is matched against the official roster by class and student-name aliases, including Chinese-only, English-only, and combined submissions where they uniquely identify one roster student.

Scores and question percentages use each roster participant's best attempt for the specified quiz.

Question Performance

Percentages use each roster participant's best attempt only. "Points achieved" handles partial credit if a future quiz uses it; "Fully correct" counts responses that earned full marks.

#	Question	Points achieved	Total points	Fully correct
1	**market-definition** Which statement best defines a market economic system?	89%	25/28	25/28 (89%)
2	**price-signal** In a market economy, prices act as signals and _____ for firms and consumers.	68%	19/28	19/28 (68%)
3	**demand-price** If demand for bubble tea rises and supply is unchanged, what is the most likely short-run effect?	89%	25/28	25/28 (89%)

#	Question	Points achieved	Total points	Fully correct
4	**private-sector** Businesses owned by individuals or shareholders are in the _____ sector.	82%	23/28	23/28 (82%)
5	**profit-motive** Why can profit help allocate resources in a market economy?	93%	26/28	26/28 (93%)
6	**consumer-sovereignty** Consumer choices influence production in a market economy; this is often called consumer _____.	82%	23/28	23/28 (82%)
7	**choice-advantage** Which example shows an advantage of a market economy?	89%	25/28	25/28 (89%)
8	**innovation** The profit incentive can encourage firms to improve quality and _____.	39%	11/28	11/28 (39%)
