Student Quiz Performance Report

Created 2026-05-11 08:38. Completion is matched against the official roster by class and student-name aliases, including Chinese-only, English-only, and combined submissions where they uniquely identify one roster student.

Scores and question percentages use each roster participant's best attempt for the specified quiz.

Question Performance

Percentages use each roster participant's best attempt only. "Points achieved" handles partial credit if a future quiz uses it; "Fully correct" counts responses that earned full marks.

#	Question	Points achieved	Total points	Fully correct
1	**budget-definition** Which definition best matches a government budget?	100%	10	10/10 (100%)
2	**balanced-budget** Government revenue is $780m and government expenditure is $780m. What is the budget position?	100%	10	10/10 (100%)
3	**deficit-calculation** Tax revenue is $650m, other government revenue is $80m, and government expenditure is $790m. What is the budget balance?	100%	10	10/10 (100%)

#	Question	Points achieved	Total points	Fully correct
4	**deficit** When government expenditure is greater than government revenue, there is a budget _____.	10	10	10/10 (100%)
5	**spending-area** Which list contains only main areas of government spending in the syllabus?	10	10	10/10 (100%)
6	**merit-goods** Government spending on education and healthcare can increase access to _____ goods.	8	10	8/10 (80%)
7	**infrastructure-effect** What is the most likely long-run effect of government spending on roads, ports and communication networks?	10	10	10/10 (100%)
8	**welfare-redistribution** Government welfare benefits can help redistribute _____ and reduce poverty.	5	10	5/10 (50%)
